

# Fuel Injection Service & Repair in Arizona

---

 [iautohaus.com/fuel-injection-service-repair-arizona](http://iautohaus.com/fuel-injection-service-repair-arizona)

The acceleration, the speed and the thrill are what you love about driving your luxury European automobile. ***But, the performance driving you have come to expect can suffer when your vehicle experiences fuel injection issues.*** Carbon build-up in your fuel injection system can cause poor gas mileage, knocking noises, rough idling and hesitation with acceleration. If you are experiencing poor performance from your luxury import car from dirty fuel injectors, they must be cleaned to prevent damage to the point of failure.

***The ASE Certified technicians at iAUTOHAUS in Tempe, Arizona provide fuel injection service and repair for BMW, Audi, MINI, Mercedes-Benz, Volkswagen, Jaguar, Porsche, Maserati, and other European models.*** When you choose a BOSCH Authorized Service Center, you can expect that you get the best possible service and the proper parts for your cherished import. The professional technicians at iAUTOHAUS have proudly served Gilbert, Chandler, Queen Creek, Phoenix and surrounding areas since 1997. [Apply for BOSCH auto repair financing.](#)

***Schedule a fuel injector service in Arizona with iAUTOHAUS today!***

## Common Fuel Injector Problems

---

Your vehicle's fuel injection system will cause problems when it is dirty or failing. ***If you do not address these issues in a timely manner you could face a failed emissions inspection and even catastrophic engine failure.*** You should not hesitate to schedule a fuel injection service as soon as you notice any of the following warning signs to prevent costly and unnecessary repair in the future:

- **Check Engine Light**
- **Extended Cranking Time**
- **Engine Misfires**
- **Poor Engine Performance**
- **Surging and Bucking With Acceleration**
- **Black Smoke Emissions**

## How Fuel Injectors Work

---

Electronic fuel injector systems are a great advance from older carburetor systems. The fuel injection system works by delivering a mixture of oxygen and fuel to the engine. The mixture combusts when the spark plugs activate, providing power to drive your car. ***Problems can occur when the fuel injectors become dirty, from poor fuel quality or spirited driving habits.*** The ***certified ASE technicians at iAUTOHAUS*** will perform diagnostics that are manufacturer-specific for your import vehicle. We will determine the source of the problem and ***provide quality, cost-effective service or repairs*** for your fuel injection system. We are committed to ***helping you keep your luxury auto running at top performance.***

**If you are experiencing any of these problems, you need professional help. Contact iAUTOHAUS in Arizona to keep you and your passengers safe and prevent irreversible engine damage.**

---

## Benefits of Fuel Injection Service

---

Fuel injection service with iAUTOHAUS will ***clean and restore your engine to improve fuel efficiency and maximize the life of your fine Euro import.*** We recommend preventative fuel injector cleaning; before you notice a problem, follow the suggested fuel service frequency found in your vehicle's owner's manual. We offer service and repair benefits for your fuel injection system to:

- **Reduce Emissions**
- **Restore Peak Performance**
- **Boost Fuel Efficiency**
- **Protect Your Engine from Further Damage**
