## Why Is Power Steering Important?

---

You should enjoy your driving experience each time you drive your luxury car. **Power steering enhances the way you are able to control your vehicle**. All modern vehicles are equipped with power steering. In order for power steering to perform its best, **power steering fluid is needed**. If you notice this fluid needs to be replenished too often, visit [iAUTOHAUS](#) in Tempe, AZ to receive friendly service with a smile.

## Power Steering Pump Repair

---

**The power steering system includes hoses and steering gear, power steering pump, belt, and fluid**. When your power steering pump needs to be replaced on your luxury car, we at [iAUTOHAUS](#) take the proper steps to ensure the repairs are made correctly and

effectively. Our technicians at iAUTOHAUS:

- **Verify the problem is with the power steering pump**
- **Remove the bad power steering pump and replace it with a new steering pump**
- **Add power steering fluid (we may bleed the system if necessary)**
- **Thoroughly inspect the power steering belt, as well as, the reservoir**
- **Inspect the rack and pinion system**
- **Closely check for fluid leaks**
- **Test drive your car to ensure everything is in proper working order**

## Power Steering Hose Repair

---

There are two different types of power steering hoses, such as the **high-pressure hose** and **low-pressure hose**. The high-pressure hose takes fluid from the pump to the rack. The low-pressure hose takes the same fluid and sends it to the pump. Power steering hose repair is one of our specialties at [iAUTOHAUS](#). We repair your power steering hose by:

- **Allowing the power steering fluid to drain into a pan**
- **Remove fittings that are holding the hose in place**
- **Remove all clips that bind the hose to the chassis**
- **Remove the hose and replace the O-rings**
- **Correctly install a new power steering hose**

## Power Steering Line Repair

---

At [iAUTOHAUS](#), we perform many power steering line repairs, and we will gladly help you! Repairing a power steering line can be intimidating if you do not have experience maintaining vehicles or making common repairs on vehicles. This is a job we can complete for your luxury European vehicle. We will:

- **Take a thorough look at your car to make sure it is the power steering line that requires repair and no other issues are present**
- **Remove the power steering line from the steering gear, retainer, and vehicle**
- **Install a new power steering line**
- **Make sure everything is functioning properly**

## Power Steering Leak Repair

---

Spotting a power steering leak is not as difficult as other vehicles problems. **You will notice fluid leaking from the hose immediately**. We will check to make sure there are no other leaks before making the necessary repairs. Our technicians as iAUTOHAUS will:

- **Remove the damaged portion of the hose**
- **Use hose clamps to connect the hose via brass knobs for each clamp**
- **Replace the hose and put it in its proper position**
- **Replenish the steering fluid**
- **Start the engine to make sure the leak is fixed**
