**MEASURED BY RESULTS.**

When it comes to working efficiently, the right size for the job works better. From wheelbase length options in the Cargo Van to seating configurations in the Passenger Van, Metris is built to meet your specific needs. And with B2B connectivity solutions<sup>2</sup>, you can seamlessly connect the Metris to the digital world. Factor in standard safety features like Crosswind Assist<sup>1</sup>, Load-Adaptive Electronic Stability Program (ESP)<sup>2</sup>; ATTENTION ASSIST<sup>3</sup>; and optional Active Brake Assist<sup>4</sup>, and Active Distance Assist DISTRONIC<sup>15</sup>; and you have what it takes to measure your success not by size, but by jobs completed.

**COST EFFICIENCY**

We're in business to help your business.

Minimizing downtime is crucial for your business. With its award-winning residual value, the Metris keeps your total cost of operation low and your productivity high. If you spend less time and money on maintenance and more time on the road, your whole company will run more smoothly.

**9G-TRONIC, 9-Speed Automatic Transmission**

Refined for maximum efficiency and unmatched comfort, this quick-shifting 9-speed automatic transmission delivers better fuel economy, reduced noise, and longer service life.

**Efficient Gasoline Engine**

A 208 hp 2.0L 4-cylinder turbocharged Direct Injection gasoline engine gets you up and moving quickly. At an estimated combined EPA rating of 21 mpg for Cargo and 19 mpg for Passenger models<sup>4</sup>, the mid-size Metris offers fuel consumption comparable to that of a small-size van.

Metris is the winner of the 2018 ALG Residual Value Award

**Up to a 15,000-Mile Service Interval<sup>5</sup>**

With an impressive service interval of up to 15,000 miles<sup>5</sup>, your van will spend less time in the shop and more time on the job.

**PERFORMANCE**

Sophisticated technology. Old-school grunt.

All the cargo volume in the world doesn't mean a thing if your van can only crawl under the weight of a heavy load. The Metris drivetrain is specifically designed to accelerate under these conditions—and save you money along the way.

The Metris is equipped with a 2.0L 4-cylinder turbocharged gasoline engine that is designed to produce substantial torque at low rpms. The combination of high torque and horsepower provides impressive performance throughout the operating range.

**2.0L 4-CYLINDER TURBOCHARGED DIRECT INJECTION GASOLINE ENGINE WITH 9G-TRONIC, 9-SPEED AUTOMATIC TRANSMISSION**

*"The Metris is quiet and feels competent around town and on the freeway, accelerating easily in and out of traffic."*  
— Los Angeles Times

- Turbocharged Direct Injection gasoline engine with fast-acting piezo injectors
- Displacement: 1,991 cc
- 208 hp @ 5,500 rpm
- Rated torque: 258 lb-ft @ 1,250–4,000 rpm
- Tank capacity: 18.49 gallons
- Battery: 12V/92Ah 850A Alternator efficiency management
- Estimated combined EPA rating: 21 mpg (Cargo), 19 mpg (Passenger)<sup>4</sup>

**SAFETY**

We thought about safety, so you can think about work.

Getting the job done is about staying focused. Our groundbreaking safety innovations deliver an extra level of protection for your cargo and passengers, and give you one less thing to think about.

**LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP)<sup>2</sup>**

This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels, and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

**DRIVER AND PASSENGER AIRBAGS<sup>6</sup>**

The driver and passenger front, thorax, and window airbags<sup>6</sup> help protect you and your passengers in the event of a collision. Passenger Vans are also equipped with rear curtain airbags<sup>6</sup>.

**STANDARD HIGHLIGHTS**

**CROSSWIND ASSIST<sup>1</sup>**

Crosswind Assist<sup>1</sup> helps you stabilize your van, and boosts safety in strong, gusting crosswinds. This standard feature helps you ensure that your vehicle remains in its lane at highway speeds.

**ATTENTION ASSIST<sup>3</sup>**

ATTENTION ASSIST<sup>3</sup> helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

**RESCUE ASSIST<sup>SM</sup>**

With Rescue Assist<sup>SM</sup> first responders to an accident can scan a QR code in a Mercedes-Benz Van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

**REARVIEW CAMERA<sup>7</sup>**

The visual parking aid is activated when the Reverse gear is selected, giving you a view of what's going on behind you, as well as providing overlays with which to guide you.

**ACTIVE BRAKE ASSIST<sup>4</sup>**

This advanced system senses the likelihood of a collision with a vehicle ahead, and sends both a visual and audible warning, followed by initiating autonomous braking.

**ACTIVE DISTANCE ASSIST DISTRONIC<sup>15</sup>**

This intelligent cruise control system can sense traffic conditions, and actively control your speed to help you keep a safe distance.

**HEADLAMP ASSIST**

Automatic Headlamp Assist is a driving aid and convenience system, which switches on the exterior lighting when the light sensor detects low ambient light levels, and off when detected light levels are high.

## METRIS CARGO

### No wasted space.

Wasted space is wasted money. That's why virtually every inch of cargo space in the Metris Cargo Van is usable. It's all about making smart use of what you have—and having the right size with which to work. With a Best-in-Class turning diameter\* and a powerful, cost-efficient drivetrain, the Metris doesn't waste any effort getting to the job. You'll feel safe along the way with advanced features like Crosswind Assist<sup>1</sup>, Load-Adaptive Electronic Stability Program (ESP)<sup>2</sup>, and ATTENTION ASSIST<sup>3</sup>. When you need to get more out of your cargo van, choose the one that delivers efficiency, along with a low total cost of operation and a Best-in-Class payload cargo capacity.\*

\*Based on a comparison of similarly sized and equipped commercial vans.

### Two wheelbases, more possibilities.

The Metris lets you choose the size you need by offering two wheelbase lengths. The standard length gives you 183 cu. ft. of cargo volume, while the **long wheelbase** option adds 9" of cargo length and 16 cu. ft. of volume, giving you even more hauling opportunities with a total of 199 cu. ft.

### SPECIFICATIONS

All measurements in inches. All width measurements include mirrors.

\*Maximum payload available when vehicle is properly equipped.

With its superior payload, the mid-size Metris can handle heavier jobs than compact vans, yet still fits in industrial and home garages.

## METRIS PASSENGER

### Treat passengers like you're one of them.

Whether you're riding or driving, it's all about how you feel in the vehicle. Take the Metris Passenger Van. It's just the right size to seat up to eight people comfortably and gives you the flexibility of three seating configurations. Add in optional features like electric sliding doors, and your passengers will have even more reasons to enjoy their journey—and you'll certainly enjoy the low cost of operation. Our groundbreaking safety innovations deliver an extra level of protection for you and your passengers, giving you one less thing to think about. Put your passengers first with the Metris Passenger Van.

### SPECIFICATIONS

## INFOTAINMENT

### Your world, at your fingertips.

Stay connected wherever you go with the Metris's multitude of sophisticated infotainment options, including USB ports, Apple CarPlay®/Android™ Auto¹ and SiriusXM® Satellite Radio.

All controlled by a cutting-edge, easy-to-operate 7" touchscreen that's well within your reach.

#### 7" TOUCHSCREEN DISPLAY

7" touchscreen with Gorilla Glass, anti-glare, and an 800x480-pixel resolution standard on all models.

#### INFOTAINMENT FEATURES

##### SATELLITE RADIO

The radio has two receivers. One for analog AM/FM reception and one for SiriusXM® Satellite Radio. The radio can be operated via the buttons on the optional multifunction steering wheel.

##### APPLE CARPLAY®/ ANDROID™ AUTO¹

The radio supports Apple CarPlay® or Android™ Auto¹, connected via USB cable. Mobile phones can be started with the voice command "Hey Siri" or "OK Google." The voice control can be activated directly with a button on the radio or with the optional multifunction steering wheel.

##### HEAD UNIT WITH NAVIGATION (OPT)

Same as the standard head unit but comes with an additional navigation system, voice command, and the capability of Live Traffic. For Communication Module (LTE) connectivity services, a built-in SIM card is required for a fast and reliable LTE internet connection used for the Emergency Call System¹.

##### BLUETOOTH®

The latest in Bluetooth® connectivity is equipped to handle all of your mobile devices, and allow for a convenient, hands-free driving experience.

##### USB PORTS

Two USB ports allow for connecting of external media devices, such as USB sticks or mobile phones, to the radio. The media content on the external device can be played once it is connected and the right source chosen in the radio menu.

## CONNECTIVITY

Available on the Metris, our B2B connectivity solutions² work harder to make your job easier – intelligently connecting drivers and vehicles to increase the efficiency of your business in the long run.

#### CONNECTIVITY SOLUTIONS² FOR YOUR VEHICLE

**MERCEDES ME CONNECT APP³** – the direct line to the driver.

The driver can easily access valuable vehicle-related information.

**INTERFACES TO MANAGE YOUR VEHICLES REMOTELY.**

## FINANCE SOLUTIONS

Through Mercedes-Benz Financial Services, we offer a variety of financing products and solutions with flexible benefits tailored specifically to meet the needs of your business!¹

For more information, visit [www.mbvans.com/sprinter/shopping-tools/finance-solutions](http://www.mbvans.com/sprinter/shopping-tools/finance-solutions)

### Retail Loan

These simple-interest, fixed-payment packages lock in interest rates and can include van and upfit equipment, as well as aftermarket products, in one contract.

### FMV Lease

A closed-end lease agreement is also known as a “walk-away lease,” since the lessee can simply turn in the vehicle and walk away at lease maturity after meeting all contractual obligations, subject to certain return conditions and mileage restrictions.

### TRAC Lease<sup>12</sup>

A Terminal Rental Adjustment Clause (TRAC) lease<sup>12</sup> doesn't require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income. Owners are responsible for the residual value of the vehicle.

## SERVICE & MAINTENANCE

Taking care of you, so you can take care of business.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you it isn't a van—it's a tool you need to make a living.

### ServiceCARE—service solutions built for you.

Whether it's a maintenance service, unexpected warranty work, or now a wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your downtime and maximizing your financial cost control.

**Complete**  
The all-inclusive service package

Service  Repair  Wear & Tear

If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

**Extended Limited Warranty (ELW)**  
More warranty. More certainty.

Service  Repair  Wear & Tear

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs, and without any deductibles, you get the benefit of predictable and attractive conditions.

**Maintenance (PPM)**  
Keeping your van in top shape

Service  Repair  Wear & Tear

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

### ROADSIDE ASSISTANCE<sup>13</sup>

All Mercedes-Benz Vans come standard with our 24-hour Roadside Assistance Program<sup>13</sup> and expert advice 24/7 through the Mercedes-Benz Customer Assistance Center, providing you peace of mind and help when you need it most.

ENDNOTES

- 1. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.
- 2. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.
- 3. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST™ may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.
- 4. Compare the estimated mpg to the EPA estimated mpg rating of other vehicles. Please see [www.fueleconomy.gov](http://www.fueleconomy.gov) for details. You may get different mileage depending on how fast you drive, weather conditions, and trip length. Your actual combined mileage will probably be less than the combined estimate. Please be advised that 91 Octane premium gasoline was used for fuel economy testing and fuel economy certification.
- 5. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.
- 6. Warning: The forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.
- 7. Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.
- 8. There are numerous legal requirements concerning the towing of a trailer, e.g., speed restrictions. Many states require a separate functional braking system for your trailer once a certain weight limit is exceeded. For reasons of safety, it is recommended that all trailers use a separate functional braking system. Make sure your vehicle/trailer combination complies with local laws. This not only means where you live, but also anywhere you are driving to. Information on this can be obtained from the police and local authorities. Observe the following when towing a trailer: practice driving around bends, stopping, and backing up at a place where there is no traffic.
- 9. Please refer to <https://www.mbusa.com/en/mercedes-me-connect> for more details. Restrictions may apply.
- 10. ExpertSOLUTIONS program vehicles are custom, special-order-only vehicles modified by the ExpertSOLUTIONS provider of your choice. Although the MBUSA warranty does not apply to the modifications, separate warranties offered by the ExpertSOLUTIONS provider may apply. Details are available from your local dealer.
- 11. Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon the creditworthiness of the customer.
- 12. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.
- 13. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
- 14. Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds and additional information and warnings.

15. Active Distance Assist DISTRONIC® is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system's operating speeds and additional information and warnings.

16. When the Emergency Call System is triggered, the following data are automatically transmitted: vehicle identification number, GPS position, direction of travel, time of the emergency call, language setting, and number of occupants in the cab. The Emergency Call System is activated from the moment the vehicle is delivered to the customer following a sale. No separate terms of use have to be accepted. The Communication Module for Digital Services and the emergency call button are necessary for use of the Emergency Call System service. The availability of the service in addition to the integrated Communication Module for Digital Services (LTE) depends on the network coverage of the mobile network provider. The Communication Module for Digital Services (LTE) is not available in the US Virgin Islands or Puerto Rico.

17. MBUSA reserves the right to change or discontinue B2B connectivity services and Mercedes me connect services at any time without prior notification or incurring any future obligation. See the terms of the B2B connectivity and Mercedes me connect Overview of Services.

18. Apple CarPlay® is a product of Apple Inc. Android™ Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content, and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges, and restrictions in user's wireless plan. Vehicle's factory audio/information interface, including COMAND® navigation, may not be used simultaneously with Apple CarPlay® or Android™ Auto. When Apple CarPlay® or Android™ Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.
